

DELIVERY ROBOT DATASHEET

Purpose	Universal delivery robot intended for cargo transportation with optional superstructure add-on for load fixation.
Length	3000 mm
Width	1300 mm
Height	830 mm
Weight	1300 kg
Load surface	3,5 m ²
Payload	1000 kg
Max Speed	20 km/h
Max Range	100 km
Power	electric
Battery	lead, 48 V, 330 Ah
Charging time (10 % - 90 %)	5 hours
Charger	230 V, 16 A
Environment	industrial/production zones/areas, warehouses, refineries, car factories, airports
Operating temperature	-20 °C – +40 °C (humidity 10 - 95 %)
